UPON BEING 'STIRRED'

I would be less than human if I didn't admit some pride in noting a second committee chairmanship this past 6 weeks from National Newspaper Association, the fourth in seven years, one spanning three years, in addition to a third consecutive year as NNA chairman for Texas. A cerebral activist, like 117, naturally sparks controversy in a tradition-oriented state like Texas. I like to think Texas has emerged in the past half decade as a dominate entity in a modern, shell-shocked country on modern terms. UnTexan as it might be, I like to think I am contributing to this emergence.

As quite a number have learned to their chagrin, my loyalties run deep, and those loyalties are slow to develop. Those loyalties are to concepts and ideals, broad as Texas prairies, not narrow like some trickling stream dried by drought. Those loyalties are to concepts and ideals applied.

I am lousy at eating 'pie in the sky,' just as I am lousy with my hands.

I live day by day looking at two quotations on a cluttered desk, presided over by a miniature James Brock bust of a Plains Indian:

Dag Hammarskjöld's "Only he deserves power who every day justifies it", and
Walter Williams' "Journalist's Creed" which urges in conclusion a journalism which is "Of humanity, of and for today's world."

Luecke Named To Chair NNA Committee

Frank M. Luecke, Herald editor-publisher, has been named chairman of a Southwest Region nominating committee of National Newspaper Association.

He chairs a 14-man committee from Texas and four other Southwest states to select candidates for election as Region 8 director to NNA.

Winner of the vote will complete the directorship vacated by Harold Hudson, of Perryton, who now is NNA vice-president.

Other Texans on the committee are Robert Hamilton, vice-president of Texas Press Association, of Iowa Park; and O. G. Nieman, TPA director, of Hereford.

Other states nominating are Arkansas, Louisiana, New Mexico, and Oklahoma.

'Flu' Strikes Schools

A rash of cases of a flu-like illness is reaching epidemic proportions in Cameron, City Health Officer Dr. E. D. Perrin said this week.

Dr. Perrin said he and another Cameron physician, Dr. S. H. Richardson, have treated 275 cases within the past week. Perrin said the disease, not confirmed as flu officially, seems to be affecting younger patients rather than adults.

He said the illness, which is contagious, is affecting the children in higher grammar grades and in junior high school. A total of 81 students were out of school sick on Friday following a total of 48 on the previous Wednesday.

School Supt. Buddy Dulin reported a total of 304 students absent on Tuesday which is about 19 percent of the enrollment. Ada Henderson School reported 130 absent; Ben Milam, 59; O. J. Thomas, 73; and Yoe High, 42. Dulin said 15 percent were absent on Monday.

Dr. Perrin said symptoms include general aches, muscle cramps, headache, sore throat, dry cough, and fever ranging from 100 to 104 degrees. Symptoms hang on for about a week, he said.

Bed rest, aspirin, and fluids are prescribed for the primary symptoms while the doctors are using antibiotics for any complications from the flu-like illness.

DPS Troopers Arrest Driver Who Fled Police

A high-speed chase starting at 11:30 p.m. Saturday ended in the arrest of Thomas C. Canizales, 19, of Cameron, by Department of Public Safety troopers.

According to Police Chief Kent Butler, Canizales was stopped by Police Officer Leonard Doskocil on a traffic violation and Canizales fled from the officer. Doskocil gave chase as the car went through the city limits near the country club.

DPS Troopers Milton Wright and Scott Douglas joined in the chase and stopped Canizales on Farm Road 2095 near Hanover.

Canizales was charged before Justice of the Peace Jess Brock with misdemeanor possession of marijuana and fleeing police.

Mrs. Ed (Becky) Magre has filed for election to the Cameron school board. Incumbents Calvin Cobb and Betsy Brown have both filed for reelection in the April 2 election.

Federal Jury Indicts 2 Robbery Suspects

A federal jury has returned indictments against two Austin men, naming them in the January 21 armed robbery of the Thorndale State Bank in Thorndale, a spokesman for the Federal Bureau of Investigation in Austin said Monday.

Named in the indictments were Jewelester Jackson, 25, and his 23-year-old brother, Tommy Ray Jackson, who both listed 5604 Woodrow, in Austin, as their home address.

The indictments were returned late last Thursday and both men remain in custody in lieu of bond. The older brother is in the Bastrop County Federal Detention Center in Bastrop under a \$25,000 bond. The younger is in Harris County Federal Detention Center in Humble, in lieu of a \$50,000 bond.

The two men are charged with the federal bank robbery in connection with the Jan. 21 incident at the Thorndale bank in which two black men took approximately \$23,000 at gunpoint. The men took money from a teller drawer, then forced bank president Norman Clement to open a safe where additional money was kept.

Jewelester Jackson was arrested Jan. 25 at his home. Tommy Ray Jackson was arrested Jan. 29 at a residence in Houston, the Austin FBI spokesman said.

The arrests came as a culmination of combined efforts of the FBI, Texas Rangers, and Milam and Williamson County Sheriff's officers which were spearheaded by Joseph E. O'Connell,

agent in charge of the FBI office in San Antonio.

An agent in the office said a partial car license number was obtained from a witness at the robbery scene.

Mishap Injures Cycle Rider

A car-motorcycle accident at 12:30 p.m. Saturday in front of Brown's Laundry resulted in injuries to the motorcycle rider.

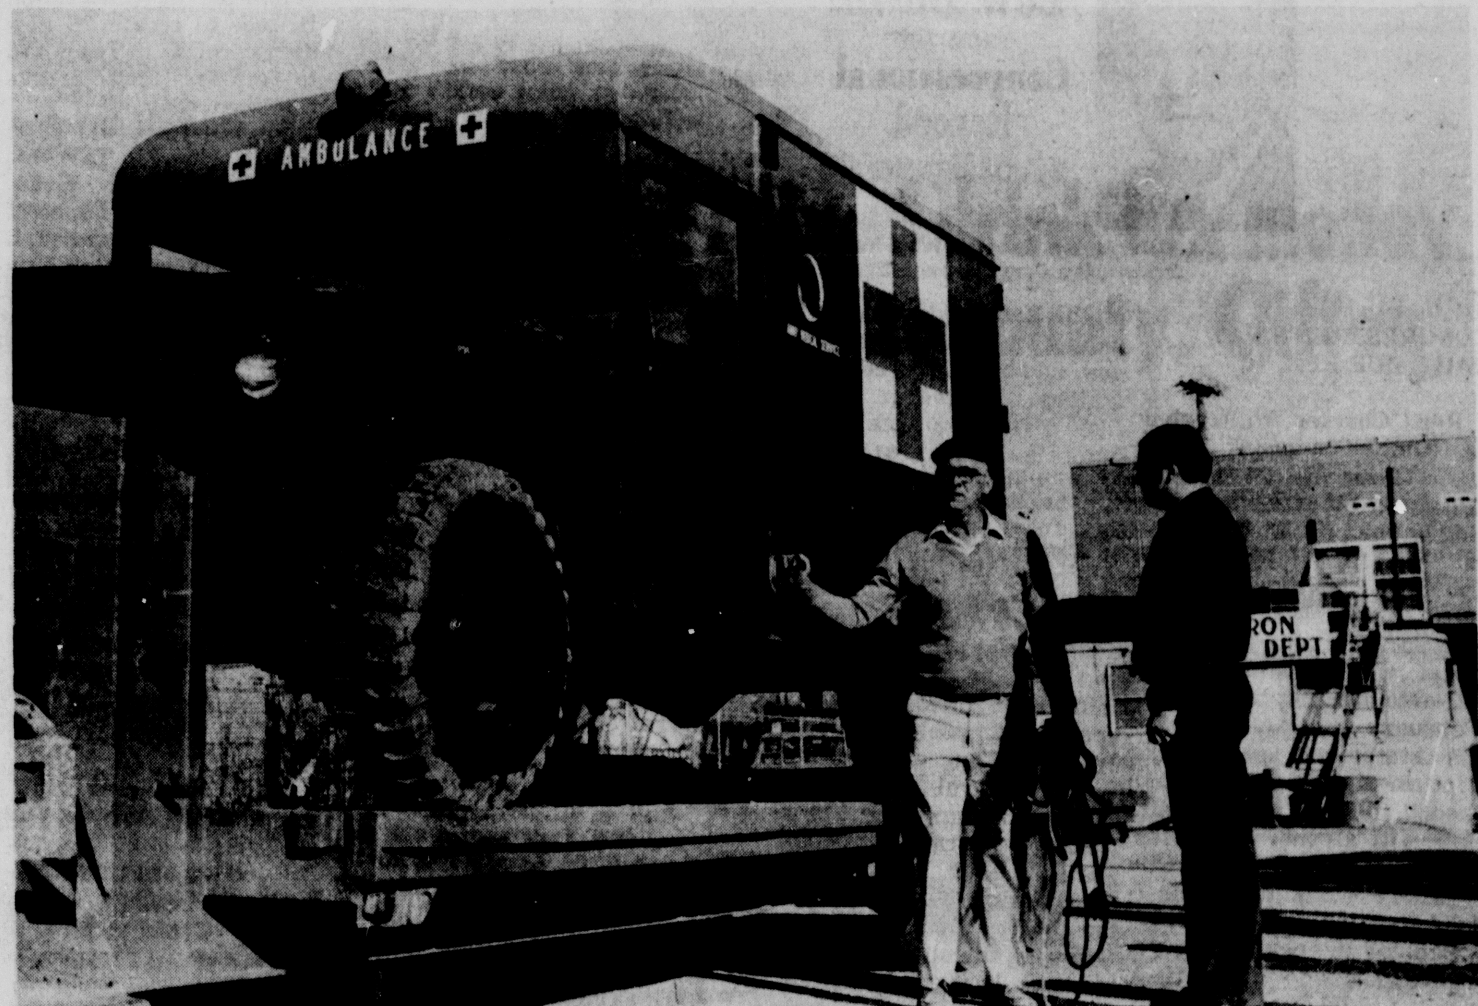

Bryant Woodfin of Cameron was described in "good condition" at St. Edward Hospital with a broken leg. His cycle was in collision with a car which pulled out from in front of the laundry as he was heading south on Crockett.

Driver of the car was not injured.

Anchors Aweigh!!....

Much, if not too much has been made of President Carter's stint as a junior Naval officer after graduation from Annapolis.

He has nominated a second prospect for CIA director who is Admiral Stansfield Turner, an expert in Soviet naval affairs.

Turner was first in an accelerated class of 1946, scheduled to graduate in 1947, two years ahead of Jimmy Carter's Annapolis graduation.

The President "has expressed publicly his interest in (the Soviet Navy)," according to Press Secretary Jody Powell.

Ted Sorenson, the first CIA nominee sent to Capitol Hill by Carter, was turned away by criticism from Senators who must approve the appointment.

It is interesting to note

that a continuity of Naval service follows the line of Presidents from Roosevelt, broken only by Eisenhower and Truman.

Franklin Roosevelt was an assistant secretary of the Navy in World War I; John Kennedy was a PT boat commander who won the Navy Cross; Richard Nixon and Lyndon Johnson served in administrative posts during World War II; Gerald Ford was a Navy officer; and Jimmy Carter is an Annapolis graduate with brief experience on nuclear subs.

It may be coincidental. It must be good duty.

But it is no accident that Jimmy Carter has turned to the Navy ranks again to draw up a name for the CIA directorship, at least one of the toughest jobs in Washington. "Anchors Aweigh!" Politically speaking, of course.

Public Will Be Done...

The various offices using the new computerized book-keeping system are getting good marks from Milam County's outside auditors.

We have been confident the new system would be relatively easy to accommodate, once everybody's attention had been turned to its positive values. But then, the positive side of public service has indeed turned since 1976, when county voters demonstrated they wanted things modern in attitude, representation, and performance.

This accounting system is in time to accommodate new

federal regulations for accounting how revenue sharing funds are allocated and spent. This same requirement will be imposed on city government, Cameron, for example, which is studying more modern techniques of management and accountability.

We congratulate county officials for following the lines of good fiscal management outlined by these auditors. It won't take too much more time to update all offices in accordance with modern needs, we understand.

The public's will is being done.

"Low Down"
FROM THE
Congressional
Record
By JOE CRUMP

(A Column for Readers Who Haven't Time to
Review the Congressional Record Daily)

CONGRESSMEN'S PAY RAISE DUE FEB. 16

Rep. Charles W. Whalen Jr. (Ohio) "... As of January 17, the date of transmittal, the clock started running on the pay raise proposal (HR 115). Unless either House of Congress votes to reject the increase within 30 calendar days after the transmittal, the recommendation will automatically become law (February 16). By the time this statement appears in print in the Congressional Record, 10 percent of the time will already have elapsed.

"There should be no misunderstanding--all that is required for the pay raise recommendation to go into effect is that we do nothing... that neither House of Congress takes any adverse action. And it appears as if this is precisely what will happen... Yes, I am a supporter

of the proposed increase in salary for Congressmen, judges, and high-level administrators. ... However, I would like to have a vote on the pay raise. I believe we have an obligation to the American public to put ourselves on record on this matter.

"It strikes me as rather unseemly to have to vote, year after year, on a matter that is to my direct, personal, and immediate benefit or detriment. ... This is not an unsolvable problem. We must enact the Congressional Pay Raise Deferral Act.

"The Congressional Pay Raise Deferral Act would postpone any increase in congressional salaries until the start of the Congress following the one in which the increase is proposed and approved. With this simple change in the statutes we would no longer be acting to our own immediate advantage, but would instead be deciding the salaries of those who are

elected to serve in the next Congress.

"In this way, we can remove ourselves from the awkward conflict-of-interest situation in which we are now trapped and also would be giving our constituents a fair and timely opportunity to pass judgement on the wisdom or folly of whatever we decide regarding pay increases for congressmen.

"I think prompt action on the Congressional Pay Raise Deferral Act would be in the best interests of Congress and the nation. ... In the meantime, the bill remains open to new cosponsors. Any Member wishing to be listed as a cosponsor should contact me or my office."

CRUMP'S GRASS ROOTS COMMENT

It will be interesting to observe the names of the congressmen who will cosponsor the Congressional Pay Raise Deferral Act.

Market Basket Prices Increase

Texas family market basket prices for January increased an overall average of 95 cents -- to \$19.27 -- according to Agriculture Commissioner John C. White.

The Agriculture Department's monthly survey covers 20 commodities and 12 major cities.

Coffee, pork and lettuce price increases tipped the average upward. Coffee prices jumped 59 cents to \$2.92 a pound, pork nine cents to \$1.25 per pound for chops, bacon 12 cents to \$1.22 and lettuce from 44 to 52 cents a head.

White said indications are pork prices will come down by mid-February.

San Antonio still held first place with lowest prices of any city checked -- for a total of \$18.37. But the increase in that city was \$1.43 over December, higher than the average.

Corpus Christi was rated highest with \$20.01. McAllen \$19.77, Fort Worth \$19.58, Lubbock \$19.50, Dallas and Houston \$19.48, Tyler \$19.24, Abilene \$19.22, El Paso \$18.88, Austin \$18.80 and Laredo \$18.52.

The survey covered milk, eggs, cheese, margarine, bread, chicken, ground beef, round steak, pork chops, tuna, apples, corn flakes, lettuce, tomatoes, pinto beans, coffee, detergent and orange juice.

White advised consumers to "do a lot of shopping around," since the market responds to buyer resistance.

Courts Bill Advances

The State Senate quickly passed as emergencies bills submitted by Gov. Dolph Briscoe to create 23 new district courts in Texas and to transfer funds for gas rate regulation.

New courts would go to Bexar, Harris, Tarrant, Angelina, Collin, Gray, Fort Bend, Smith, Lubbock, Midland, Brazoria and Montgomery counties. New judicial districts would also be created for Atascosa, Frio, Karnes, LaSalle and Wilson counties; for Hamilton, Comanche and Bosque counties and for Deaf Smith and Oldham counties. Three other districts would be realigned.

Bids Counted

A School Land Board lease sale netted \$8.5 million for the Permanent School Fund.

Oil and gas producers submitted 213 high bids to lease 127,754 acres of state school lands at an average price of \$66.80 an acre. Highest bid of \$765,408 was submitted by Houston Oil and Minerals Corp. for a 680-acre Gulf of Mexico tract. Second high bid of \$329,760 was awarded to Oil Development Company of Texas for a Nueces County tract.

Appointments

Gov. Briscoe named Ben M. Durr of Humble to a va-

cancy on the Texas Board of Health Resources and reappointed six existing members. He also reappointed P. Bolin Mahaffey of Corpus Christi to the Texas Health Facilities Commission.

Briscoe appointed Roland M. Searcy Jr. of Bryan and Mrs. Anne Mortimer Balandyne of Dallas to the Texas Board of Private Investigators and Private Security Agencies. James P. Baker of Lufkin and Mrs. Hollis B. Atkinson of Waco were named to the Texas Board of Licensure for Nursing Home Administrators.

Courts Speak

Texas Supreme Court refused to rule on a contest involving whether an employer can be forced to hold back salary of an employee during a divorce proceeding.

Two Dallas corporation executives won a \$7.6 million suit for repurchase of shares under a stock option when the Supreme Court upheld an intermediate court decision.

Third Court of Civil Appeals reversed a judgment in an oil and gas lease suit against two defendants who died 10 years before the action was filed.

The Supreme Court accepted an appeal from Texas Employers Insurance Association in a case involving coverage of all falls on the job under workmen's compensation.

The Court of Criminal Appeals reversed an assault conviction of a Bell County man.

AG Opinions

The City of Brownsville has authority to construct and maintain an international bridge connecting the city with Mexico, Atty. Gen. John Hill found.

In other recent opinions, Hill concluded:

A law directing the State Board of Insurance to develop readability standards for health and accident policies is constitutional.

The University of Texas must provide individuals copies of their grade transcripts.

The farm machinery exemption from the sales tax does not apply to equipment used by an agricultural cooperative association to process, pack or market members' products.

El Paso's City-County Board of Health may promulgate regulations concerning retail sale of ungraded raw milk on public notice.

Lease agreements to which the Galveston Wharves board is a party are public information and should be disclosed.

Short Snorts

Sixty eight per cent of school superintendents in a survey indicated they favor increasing the general sales tax by one cent and earmarking revenues for public schools.

Three hundred and twenty-two new attorneys will get their licenses in Valentine's Day ceremonies here.

Two legislators have introduced resolutions to recall Texas ratification of

Dear editor:

Some Washington columnists have been saying the past few years that one trouble with the country today is that the people have lost faith in government officials.

There's another side to that. Some government officials have lost faith in the people.

For example, President Carter has proposed giving every person in the nation \$50 apiece to get the economy moving faster. His economic advisers say the release of that much money, around 10 or 12 billion dollars, will stimulate business and get the wheels of trade and industry whirling.

But now here comes a Senator saying it won't work, that too many people won't spend their \$50, they'll sock it away in the bank or in savings and loan or under their mattress. Or, what is worse, instead of rushing out and buying something new they'll apply it on their old debts and this won't nudge the economy up a nickle's

worth.

This is what I'm talking about. The Senator has lost faith in the American public. How can he be so far out of touch with reality? Doesn't he know that, except for a few moss backs who don't understand the economy and think you can save your way to prosperity, the rest of the people, given \$50, will spend it as fast as they can get to a store or thumb through a catalog?

Public officials ought to get out among the people and find out how they operate. Furthermore, Congressmen, as soon as they get their economy-stimulating 25 percent raise on top of their present \$44,500 salary, ought to set an example and pledge themselves to spend that extra \$10,000 as soon as they get their hands on it. Saving up for a rainy day isn't the way to do it. Although come to think of it, perhaps a lot of the country should have been saving up for a snowy one.

If that Senator knows of anybody who won't spend his \$50, strike his name off the list and send the money to me. I know what to do with it.

Yours faithfully,
J. A.

By Bill McCutchen
Milam Co. Ext. Ag.

Cameron. The program is co-sponsored annually by the Milam County Crops Committee and the Milam County Farm Bureau.

One of the big problems facing farmers this year will be weed control. Treflan and

other incorporated yellow herbicides have been depended on more and more and incorporation looks doubtful this year. Dr. Dave N. Weaver will address these questions at the Tuesday night meeting.

Bob Glodt, county entomologist serving Milam and Williamson County, will cover several topics including an update on the cotton pest management program for 1977, insect control outlook for 1977, and an update on private applicator certification requirements.

The 1977 Milam County Cotton Meeting will be held Tuesday night, February 15 at 7:30 p.m. at the Farm Bureau meeting room in

MOD Benefit Nets \$400

The Rogers March of Dimes benefit basketball game played in the local gym Thursday night was highly successful in every way. The faculty of Rogers High School played the KTEM radio disc jockeys in a hilarious game before a packed gym of people who donated about \$400 to the March of Dimes.

The game was set up and run off by Coach Donald Godwin of Rogers High School. Jack Calvert of Temple, executive secretary of the Leon Valley March of Dimes; David Light, Temple March of Dimes board of directors; and others helped with the game.

Mr. and Mrs. B. F. Harbour, Rogers, representatives of the Leon Valley March of Dimes board of directors, arranged for the benefit game and also for the

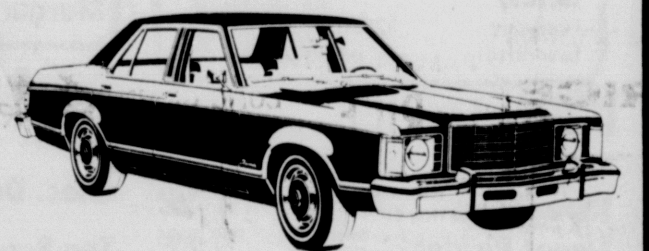

Mothers March on Jan. 28 with Mrs. Harbour as director of that event, which was also highly successful.

The Mothers March brought in \$253.50.

Other Rogers women who helped with the Mothers March were: Mrs. Neita Warren, Mrs. Nita Wright, Mrs. Grace Cannon, Mrs. Dolie Rollins, Mrs. Dora Cobb, Mrs. Ella Poncik, Mrs. Jo Spinn, Mrs. Noma Cobb, Mrs. Margaret Ward, Mrs. Martine Moore, Mrs. Judy Hutka, and Mrs. Juanita Jones.

Forty percent of the money raised here will stay in the Leon Valley March of Dimes treasury to be spent here in Texas on birth defects. Sixty percent goes to the national March of Dimes organization to finance research of birth defects.

Seminar

Draws Five

Cameronites

Five hospital and auxiliary officials from Cameron joined officials from across the state in Austin on Monday and Tuesday to attend a seminar of government regulations.

A major part of the meeting was spent reviewing the effects that various pieces of legislation will have on hospitals as well as the quality and cost of health care.

Attending from St. Edward Hospital in Cameron were Mrs. D. R. Dodson, auxiliary president; Mrs. Bill Burns, auxiliary vice-president; Sister Brigid Marie, assistant administrator of St. Edward; Sister Mary Ita, director of nursing service; and Sister Mary Pauline, St. Edward administrator.

After orientation to the legislative process and introduction to the key issues affecting hospital care delivery, the attendees then visited Rep. Dan Kubiak to brief him on key issues.

The seminar was sponsored by the Texas Association of Hospital Governing Boards in cooperation with the Texas Hospital Association.

State, National Parks Offer Pass To Seniors

For anyone, state and national parks are a hard-to-beat recreation bargain, offering a full variety of outdoor enjoyment for a very nominal fee. Now, an extra bonus is available to senior citizens in Texas' state parks as well as the federal ones. The 64th Legislature in 1975 authorized waiving the park entrance fee for person 65 years of age and over. With adequate proof of identification, The Texas Parks and Wildlife Department will issue a free, annual State Parks Pass in the form of a windshield sticker and registration receipt. These admit the holder and all companions in his vehicle to any park where en-

trance fees normally are charged, but are not valid for pier fishing privileges or park conducted tours. Daily entrance fees admit a vehicle and all occupants for day use, or overnight when purchased in conjunction with overnight user fee. However, an annual permit in lieu of a daily park entrance fee is available for \$12 for those under age 65, while a \$5 restricted annual permit allows entrance to any one designated state park. These permits also are not valid for pier fishing or park conducted tours. The federal government issues Golden Age and Golden Eagle Passports to selected national parks, monuments, and recreation areas.

The Golden Age Passport, free to persons 62 years of age or over, is good for the lifetime of the permittee and allows entry to the holder and accompanying riders, plus 50 percent discount for use of non-concession facilities within the national areas. The \$10 Golden Eagle Passport, available for those under age 62, is good for one calendar year. This entrance permit for holder and companion in a single vehicle does not cover facilities fees in the federal areas. Information brochures about the federal permits may be obtained from the National Park Service, Interior Building, Washington, D.C. 20240 or the U. S. Forest Service, Washington, D.C. 20250.

Yoemen Bag Wildcats In Monday Cage Action

The Elgin Wildcats invaded the O. J. Thomas gymnasium Monday night, defeating the Yoe seventh grade and freshmen.

In seventh grade action, the Wildcats led at the end of an almost scoreless first period, 2-0, but extended their lead by the half to 14-9. The Yoemen's second half

effort was fruitless as they could never get back in the ball game and dropped to the Wildcats, 40-18. Leading the seventh grade scoring was Gerald Moore with 5 points.

The Yoe eighth grade managed to overthrow the Wildcats 40-36. The Yoemen jumped ahead in the opening stanza, 12-4, and held a 10 point spread at the end of the first half, 22-12.

The third period almost did the Yoemen in as the Wildcats fought back to within three points and the Yoemen held a less than slight edge 28-25.

In the final period the Yoemen again opened up to the scoring and went on to defeat the Wildcats, 40-36.

Leading the Yoemen to victory were Jasper Harden with 13 points and Billy Lowe with 10.

The Yoe freshmen were last but not least for the night as they outscored the Wildcats 47-34.

The Yoemen trailed at the end of the first quarter, 12-9. Fighting back in the second period, the Yoemen gained the lead they had been looking for as they stepped ahead of the Wildcats, 22-16.

The Yoemen advanced their lead in the third period to 33-26 and topped off the night's action, defeating the Elgin Wildcats 47-34.

Leading scorers for Yoe were Terry Lowe with 24 points and Dowe Dodd with 18.

FRESHMAN Coach Paul Hoelscher gives his team some last minute instructions before defeating Elgin 47-34.

Varsity, JV Stage Wins Girls Drop To Panthers

The Cameron Yoe round-ballers played host to the Pflugerville Panthers in basketball action Friday night.

The Yoe Junior Varsity opened the action, defeating the Panthers 34-27. The Yoemen held a two-point advantage at the end of the first period as they led 7-5. The Panthers fought back in the second period to tie up the game at the half 14-14.

In second half action the Yoemen jumped ahead by 6 and led the Panthers 26-20. The final period opened the game up for the Yoemen as they went on to defeat the Panthers 34-27.

High pointers for the Yoe JV were David Pittman with 14 points and Steven Hollas with 10.

Junior Varsity Coach Roy Knight said, "Our discipline kept us in the game. We presented good ball control and had very few turnovers. We had a great defensive effort out of our post men and our ball movement was good."

The Yoe varsity took the second bout away from the Panthers, defeating them 53-40. The Yoemen pulled ahead of the Panthers in the opening quarter and never let up as they also led at the half 22-19. The end of the third period saw the Yoemen ahead 34-21 and going on to defeat the Panthers of Pflugerville 53-40.

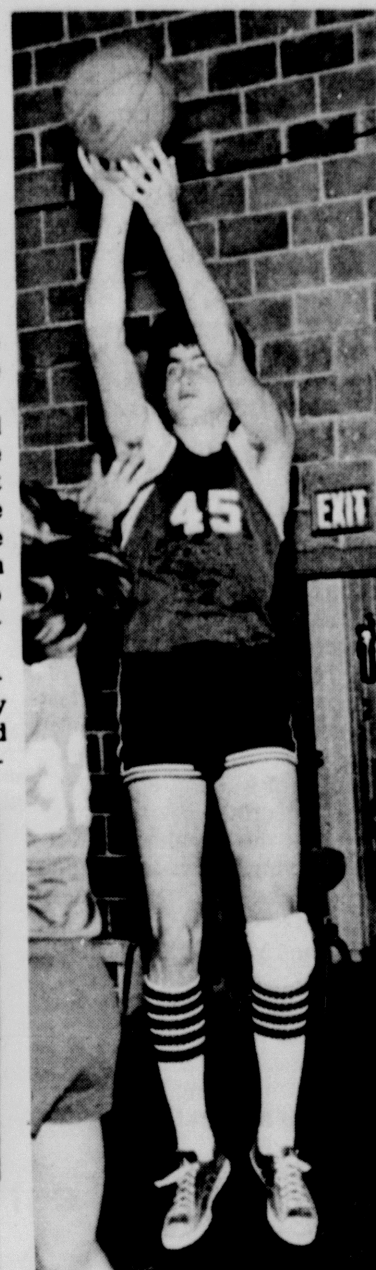

Leading the Yoemen offensive attack were Gerry Heitman with 24 points and Curtis Wise with 10. Heit-

man also set the year's high for rebounds as he brought down 21 rebounds for the night.

Varsity Coach Kenneth Poole commended his defense for a superb job for the night.

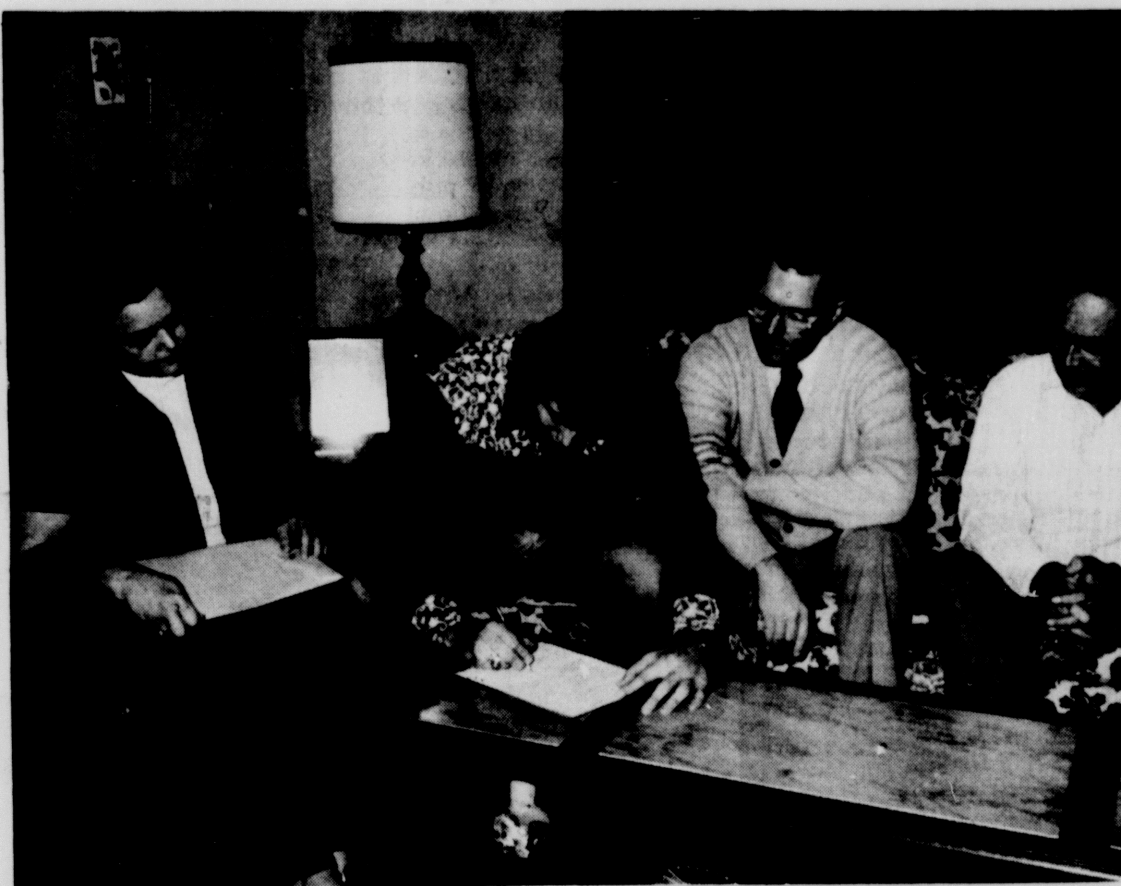

The Yoe girls varsity closed the night's action with the Panthers, dropping their game 81-31. The Yoe girls just couldn't put it all together to defeat the powerful Panthers as the Panthers led throughout the game, before defeating the Yoemen.

Leading scorer for the Yoemen was Evelyn Pittman with 19 points.

FRESHMAN Terry Lowe jumps high for 2 points. Lowe led the Fish scoring against Elgin with 24 points.

ICA Head Testifies For Bill

T. A. Cunningham, president of the over 100,000 members of the Independent Cattlemen's Association of Texas, testified before the Texas House Agriculture and Livestock Committee in behalf of Rep. Bill Sullivan's House Bill 22.

"The important of the concept of untaxing open space cannot be stressed enough when the country is experiencing such dark days in agriculture. Fewer and fewer Texans are entering into the business of ranching and farming because the profitability of the business is becoming non-existent," Cunningham stated in opening remarks.

Cunningham said the north is presently experiencing the effects of government imposition on the private sector in that instead of encouraging the exploration and production of Texas natural gas, it discouraged it. He stated that the government must provide incentive to the private sector and that this is what Rep. Sullivan's bill would do to agriculture.

"I want to make it clear that this Association wants in no way to downgrade free public education; but it is time that the burden of taxation be spread to all citizens of this state rather than primarily to those who are actively engaged in ranching and farming. Agriculture is too important to the nation to be hindered in any form or fashion. We of course want to carry our fair share for the financing of public education," Cunningham continued.

Cunningham expressed hope that the members of the Texas Legislature would in formulating a new method of public school financing place an absolute ceiling on the rate at which property could be taxed. He also urged the Legislators to consider the adoption of the use valuation method of taxation when revision of state inheritance tax laws comes before them this session.

Home gardeners often overlook the importance of organic matter in the soil. Plenty of organic matter can be the clincher for a successful garden.

Organic matter serves mainly as a "soil conditioner." It is available in the various forms, including animal manure, compost, cover crops of mixed organic fertilizer. But whatever form is used, it should be applied to the soil at least two weeks prior to planting.

In moist, well-aerated, warm earth the decomposition of organic matter improves the tilth, water-holding capacity and nutrient content of the soil.

The addition of organic matter also controls the release of nutrients and decomposition acids. The micro-organisms (fungi, bacteria, worms) that live in the soil and aid in the decomposition process also benefit.

In actuality, organic matter gives "life" to the soil. That's why it's so important.

MULTI-PURPOSE TOOL KIT
Accomplishing professional-quality home repairs and making good-quality decorative items for around the house is often a matter of having the right tools for the job.

Many people think that owning an adequate wardrobe of tools is an expensive proposition and they decide to chuck the whole do-it-yourself idea. What they don't realize is that calling in professional repairmen or buying fully-made household items such as models, shelving, or small cabinets usually costs much more.

This has become even more true now that a reasonably priced, complete workshop-in-a-kit is available at hardware

centers to homeowners with a yen for doing it themselves. The kit consists of a light, hand-held high speed electric power unit with 45 attachments for drilling, sanding, cutting and shaping metal, plastic or wood. Called the Weller Mini-Shop Kit, it also provides cleaning brushes, polishing wheels and abrasive discs—handy for removing rust spots from tools or putting a supershine on deep-patterned silver flatware and bowls. For sharpening scissor blades, pruners or kitchen knives, the kit contains grinding and sharpening wheels.

This mini-kit of multi-purpose tools with a multitude of uses can open up a new world of creativity for the hobbyist.

Morrow To Head MH Campaign

Mrs. Larry Morrow of Cameron was named Mental Health Bellringer chairperson for the May '77 campaign announced Shirley K. Camfield, president of the Mental Health Association in Texas.

"The Mental Health Association is the largest citizens' voluntary advocacy organization in the United States fighting mental illness and promoting mental health," said Camfield.

Since the organization is non-governmental, its entire support must come from contributions, such as those collected in May.

The original and continuing purposes of the association are:

- *improve attitudes toward mental illness and the mentally ill;
- *improve services for the mentally ill; and
- *work for the prevention of mental and emotional illness and promotion of mental health.

Through social action the association sees that governmental agencies are accountable. One example is seen in the results of an impoundment suit brought by the Mental Health Association which forced the release of over \$1,600,000 federal funds in Texas for research, alcoholism, and manpower.

Engineers Week Set At A&M

COLLEGE STATION

They've got all the mouse-traps they need but if you can come up with a better paper airplane it might be good enough to win the first annual contest for this type of craft to be held at Texas A&M University.

The contest, open to all, will be held during the 26th National Engineers Week, Feb. 20-26, and will be sponsored by the Texas A&M student chapter of the Texas Society of Professional Engineers.

Competition will be conducted from the top floor of the Zachry Engineering Center with details to be announced later, according to the chapter chairman David James.

They will join with 70,000 engineers from across the U.S. to celebrate National Engineers Week to introduce the many facets of the engineering profession.

The week of George Washington's birthday is traditionally observed as Engineer's Week because the nation's first president was a trained land surveyor and a designer of roads, fortifications, and other structures. He had the educational background of a civil engineer in the late 18th Century.

Also this is a chance for any group or individual to nominate their favorite area engineer for the Brazos Valley Chapter of the TSPE's "Engineer of the Year" and "Young Engineer of the Year" contest.

The medical term for the fear of work is Ergophobia.

Patman Reports Efforts To Raise Interest Rates

By Bill Patman

Texans should not be forced to pay the exorbitant rates loan companies and asking the Legislature to approve.

Two years ago the Texas Senate narrowly defeated a bill to raise loan company interest rates. But the loan companies never give up, and their lobbyists are back again this session. They received a 70 percent increase in interest rates on loans between \$15000 and \$25000 in 1967. Since then, they have returned every two years seeking further unwarranted increases.

This year's bill will call for raising the ceiling on the higher interest loans from \$2500 to \$5000. Loan companies say they need that increase because of inflation. But the real reason they want the cap raised is to they can drastically increase the interest rates on ALL loans under \$5000.

Please note, and loan companies never mention this, that they already can loan ANY amount of money to be paid back in monthly installments. The sore point is that their interest is limited. For example, on a three-year loan, the interest would be about 14.5 percent. Other lenders find this rate acceptable, but loan companies want still more.

In addition, loan companies are seeking an "escalator clause," so that each time the consumer price index goes up 10 percent, the brackets on loans will increase 10 percent also. For example, the \$0 to \$300 bracket (the highest interest bracket) would become the \$0 to \$330 bracket. And that high interest bracket is applied to EVERY loan, no

matter the size.

This sort of clause is unfair to the borrower and bears no relationship to the loan companies' borrowing costs. What it means is that whenever your utility and grocery bills go up, the cost of borrowing money--perhaps to help pay those bills--will increase correspondingly.

Loan companies say they lend money to one out of every five families in Texas. They recently claimed to be making as many as 600,000 loans in this state. So a rate increase will directly hurt one out of every five families and indirectly hurt the rest of us by adding to inflation.

Loan companies claim they loan money to people who cannot borrow from other lending institutions. What the loan companies want to do is loan more money to people who are least able to repay it. They want to charge all their customers excessive rates to offset the money they lose by making loans to those who cannot make their payments.

If loan companies had been more careful about lending in the past, they might not be

before us again this year asking for rate increases. But then again, they probably would. They will take as much money from the pockets of poor and middle income families as the Legislature will allow. Only the Legislature can stop them from this pickpocket behavior. And only the people can convince legislators to vote against higher interest rates.

Tax Records Help In Filing Return

Taxpayers who keep good records during the entire year will be better prepared to file a complete and accurate tax return, the Internal Revenue Service said.

By keeping good financial records, the taxpayer can not only substantiate expenses, income and itemized deductions on his or her tax return, but also be aware of certain deductions that might otherwise be overlooked.

Taxpayers are not required to keep any particular type of records, but they must retain all receipts, cancelled checks, bills, and other written documents to provide their expense.

These records must be kept for at least three years from the date that the return was due or filed, or two years from the date that the tax was paid, whichever occurs later.

Some records should be kept even longer, the IRS advised, such as property records which should be retained as long as they are useful in determining the basis of the original or replacement property. In addition, copies of past tax returns can help the taxpayer prepare future returns.
